ROI in Wellness

HYPERBARIC OXYGEN THERAPY

Mini Sub HBOT

Compact • Powerful • Advanced

A premium single person hyperbaric chamber engineered for optimal wellness, recovery and performance. The Mini Sub HBOT delivers therapeutic oxygen in a safe and comfortable environment.

TECHNICAL SPECIFICATIONS

Product Name	Mini Sub HBOT
Product Type	Hard-Shell Hyperbaric Oxygen Chamber
Capacity	1 Person
Rated Pressure	0.09 MPa
Maximum Operating Pressure	2.0 ATA
Pressurization Medium	Air
Internal Chamber Oxygen Concentration	Below 25%
Oxygen Generator Concentration	93–95%
Oxygen Delivery Method	Mask or nasal cannula
Oxygen Output Pressure	0.20–0.25 MPa
Chamber Material	High-strength manganese steel
Manufacturing Process	Integrally stamped / formed
Anti-Rust Treatment	Full-unit electrophoresis
Air Conditioning	Integrated heating and cooling
Control Panels	Internal and external LCD displays
Language Support	Multi-language
Noise Level	Below 20 dB (manufacturer specification)
Length	1850 mm
Width	850 mm
Height	1500 mm
Chamber Weight	300 kg
Power Supply	230V / 50Hz
Input Power	350 W
Molecular Sieve Service Life	10 years (manufacturer-stated)
Warranty	2 Years
After-Sales Support	Lifetime support
